

# Social Media Toolkit

## Title: World Cancer Day (February 4)

For use during week 5 (2/3/2020 – 2/9/2020)

Launch Date: 1/22/2020

## Introduction

### About This Toolkit

The purpose of this toolkit is designed to help create awareness and communication about cancer prevalence. It should help one be able to implement and evaluate social media strategies. Cancer is a genetic disease—that is, it is caused by changes to genes that control the way our cells function, especially how they grow and divide.<sup>1</sup> In the United States an estimated numbers of new cancer cases and deaths in 2019 show that there will be 1,762,450 new cancer cases diagnosed and 606,880 cancer deaths.<sup>2</sup>

### What Is World Cancer Day?

World Cancer Day is an international day designed to bring awareness towards cancer and bring everyone together to fight the cancer epidemic. Each year, hundreds of activities and events take place around the world, gathering communities, organizations and individuals in schools, businesses, hospitals, marketplaces, parks, community halls, places of worship - in the streets and online - acting as a powerful reminder that we all have a role to play in reducing the global impact of cancer.<sup>3</sup>

### When Is World Cancer Day?

World cancer day is every year on the 4th of February.

## Target audience/high-risk subsets

### *\*Describe audience*

- All people residing in the United States could be at risk for cancer.

### *\*Describe high-risk or sub-populations, if appropriate*

- Depending on the type of cancer, different groups of people are at risk.

## Target Audience Needs/Issues/Considerations

### *\*Include considerations that the opposition may provide*

Actions should engage their demographic audience to the social media posts through compelling images and videos. When making posts, the informer needs to analyze when their specific demographic is online to post and interact on social media platforms. When presenting information about cancer on social media include using engaging images and diverse representation regarding age and ethnicity.

## Supporting Campaigns

- American Cancer Society
- World Health Organization
- Centers for Disease Control and Prevention

**These are great Images & Posts.**

**TWEETS**

**Twitter best practices**

- *Keep it short and simple--although messages can be <280 characters now, keep them short anyway!*
- *Post often--it is recommended to post 3 tweets per day, with different framing to reach diverse populations*
- *Post other relevant content from partners or followers*
- *Use relevant hashtags (maximum of 2 hashtags)*

<p><b>Tweet 1</b></p>	<p>This February is #WorldCancerDay. Share your personal commitment to reduce the impact of cancer for yourself, the people you love, and the world. #IAmAndIWill worldcancerday.org  <a href="https://twitter.com/EastgateStride/status/1195391950242889729">https://twitter.com/EastgateStride/status/1195391950242889729</a></p>
