

GEOGRAPHIC INFORMATION SYSTEMS (GIS) FUNDAMENTALS

A WEBINAR/ONLINE WORKSHOP

October 17, 18, 20, 24, 25, 27, 2016

Participants will learn to use ArcGIS to produce a finished map. You will perform basic mapping skills which include project setup, setting up tables for data export, joining data tables to a map, and performing simple GIS analysis. John Woodard, MS, GISP, GIS Coordinator for Chagrin Valley Engineering, will be the workshop instructor. He has had more than 15-years' experience with GIS, including being the GIS specialist for a public health department.

Monday (10/17/16 and 10/24/16, 6-8 p.m.)—live webinar session

Tuesday (10/18/16 and 10/25/16)—recorded online lecture

Thursday (10/20/16 and 10/27/16, 6-8 p.m.)—live webinar map lab

Workshop charge is \$300 or \$350 for participants who would like an official certificate of completion from Northeast Ohio Medical University. Participants will need to purchase Getting to Know ArcGIS (4th edition, \$46-55.56 from online sellers) and ArcGIS (free 60-day trial or \$100 for one year as a personal user). Contact 330-325-6179 or email pubhlth@neomed.edu to register. Make checks out to CEOMPH; mail to 4209 State Rte. 44, Rootstown, OH 44272.

The Ohio State Board of Sanitarian Registration as approved this program for 12 hours of continuing education.

**Learn to use GIS
for data analysis
and communicate
your results
through maps!**

**Learn how to
connect your field
data to GIS maps!**

**Learn how you
can support grant
projects with GIS!**

**No need to
travel—webinar
and online
workshop!**
